"I've got the vision — now what I need  
is help with implementation!"

**Our Mission and Values:**

To help Australian churches reach their maximum potential.

**Values:**

- We value the process of leadership development one leader at a time.
- We value the practical application of Biblical principles in the strategic planning and implementation of each Church's vision.
- We value the process of developing highly effective Churches utilising methods and tools that create systemic and lasting change.
- We value the potential of every believer to be an effective minister for Jesus Christ in a well-organized, well-led Church.
- We value the uniqueness of every Church and every Church leader.

**Our Unique Focus:**

A Personalised Approach

In 2008, 25 Australian Senior Pastors will be trained and available to you as coaches. Each coach has been selected by Willow Creek Australia because of their leadership experience and their sense of calling to this ministry.

This is much more than a training curriculum or workshop series. Through a coaching relationship we take a personal interest in the success of every Pastor and church we work with.

Our job is not done until we truly make a difference. At your pace and according to your needs your coach will work with you around seven areas of focus:

1. Strategic planning and implementation
2. Leading change
3. Organising and delegating
4. Maximising key ministry positions
5. Systems for outreach and assimilation
6. Maturing your church financially
7. Developing leaders and teams
